Address To Be Used for Correspondence:

Work Home

Street/PO Box: _____

City/Zip: _____

Telephone Numbers:

Work: _____ Ext. _____

Cell: _____ Home: _____

I am interested in Graduate credit.

I am interested in Undergraduate credit.

**Deadline for this Interest Form is
June 1, 2009.**

**Mail to: Mary Tellefson
1700 W. State Street, Janesville, WI 53546
FAX: 608.758.6169**

*The email address you provided above is the means by which you will be contacted by June 30 with confirmation of participation or with regrets.

Spatiotemporal Development
Interactive Workshop
August 21-22 and 28-29, 2008
WCBVI Janesville WI Campus

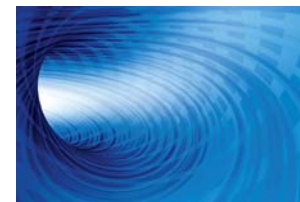

www.wcbvi.k12.wi.us

Wisconsin Center for the Blind and Visually Impaired
1700 W State Street
Janesville WI 53546

WCBVI presents an
Interactive Workshop entitled:

Spatiotemporal Development:

**A Framework for
Understanding the
Developmental Needs of
Young Blind and Visually
Impaired Children**

**August 21-22 and
28-29, 2009**

**WCBVI Campus
1700 W State Street
Janesville WI 53546**

Graduate and Undergraduate
credit options available through
Silver Lake College.

ACVREP credits applied for.

Workshop Content

Learn to use a framework based on levels of spatiotemporal development to evaluate the needs and instructional strategies appropriate for babies and developmentally young children who are blind or visually impaired, including those with multiple disabilities.

The workshop will focus on visual and non-visual strategies that facilitate age/stage development.

Who will benefit?

Teachers working with vision impaired or blind children such as TVI, O&M, OT, COTA, PT, PTA, special education teachers, B-3, teacher aides, and child-care providers.

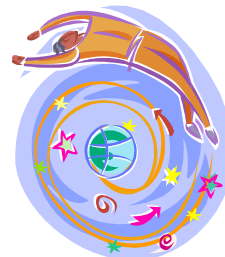

Because of its interactive nature, enrollment in this workshop is being limited to a multi-disciplinary group of 25 participants to guarantee the rich discussion from which we can all learn.

Presenter: Mary Tellefson, MA, MS, COMS
State O&M Outreach Consultant, WCBVI

Learner Objectives

- ⇒ Use four levels of spatiotemporal development to analyze, evaluate and determine appropriate intervention and teaching strategies.
- ⇒ Apply principles of movement and sensory-motor development to instructional strategies and approaches to learning.
- ⇒ Understand the development of spatial relationships related to "orientation skills" and the influence of the environment in hindering or facilitating development.
- ⇒ Understand and apply principles of teaching and learning to current roles with vision impaired children, through self-analysis.
- ⇒ Use the spatiotemporal development framework as a context in which to analyze the most current research and promising practice recommendations.
- ⇒ Understand the interplay between the spatiotemporal development framework and the Wisconsin Model Early Learning Standards.

Credit Options

Participants who choose to earn 3 graduate or 3 undergraduate credits from Silver Lake College will have the opportunity to extend the knowledge and skills gained from the WCBVI workshop to an independent and authentic application of theory to practice within his/her relevant educational and/or professional setting. It is the student's responsibility to determine whether s/he has the prerequisite knowledge and skills to complete the credit option requirements.

Cost: The cost per graduate and undergraduate credit is **\$175 per credit**. This is in addition to the workshop fee. The credit registration form and syllabus will be available online two weeks prior to the workshop date (or hard copies will be available at the conference) at: **www.wcbvi.k12.wi.us**

Registration for credit will take place during the first workshop session on August 21, 2009.

Friday classes: 12:30-6:30 p.m.
(bring sack supper)

Saturday classes: 8:30 a.m.-2:30 p.m.
(lunch provided).

Overnight accommodations on your own.

Step 1: Return Interest form.

Step 2: Receive email notice of acceptance or regrets.

Step 3: Upon confirmation of acceptance, send in \$25 Registration fee.

Step 4: Receive detailed information packet in mail.
